3 of 3 people found the following review helpful. Good book for emerging teachers.By Zhasta's RemedyGood book with lots of information. I only purchased this book because it was required otherwise it's one of those books that you should sit down at the bookstore, buy a cup of coffee and browse through. Good tips for teacher but nothing

innovative. A lot of fundamentals and common sense information that any teacher can gather by doing a LITTLE research on their own. 0 of 0 people found the following review helpful. excellent book. Delivered on-time

Just as described and arrived quickly.

Use technology to focus on your students!  
In this step-by-step guide, teacher and education blogger Catlin Tucker outlines the process for integrating online discussion with face-to-face instruction in a way that empowers teachers to focus their energies where they're most needed. With concrete strategies, ready-to-use resources, and sample rubrics grounded in the Common Core State Standards, this book shows teachers how to:  
Increase engagement and drive higher-order thinking  
Prepare students for high-stakes exams without sacrificing class time  
Assess online work  
Personalize learning and differentiate lessons  
Move toward flipped instruction to create a student-centered classroom
