Lita Epstein : Bookkeeping Kit For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Bookkeeping Kit For Dummies:

1 of 1 people found the following review helpful. If you haven't bought this book keep lookingBy jeoI rarely take the time to write a review but in this case I feel compelled. I cannot agree more strongly about the errors in the book that other reviewers have pointed out. It is very frustrating to try to understand a nonintuitive concept such as credits/debits when there are errors sprinkled in the explanations. Whoever edited this book should be fired. There are sample questions and answers which are fine, but the only reason I can fathom why they must be separated by a number of pages is to piss me off. Flipping back and forth from question to answer on a Kindle is very annoying. I searched both the publisher's and author's web pages for a list of errata to help with errors but was unsuccessful. If anyone can help in this regard or with a suggestion of a better book, I would be grateful.0 of 0 people found the following review helpful. Five StarsBy FranquieQuick delivery and a great price!0 of 0 people found the following review helpful. I Love this bookBy ArtisticpensBookkeeping For Dummies provides the easy and painless way to master this critical skill.
