World Bank : Breaking the Conflict Trap (Policy Research Reports) before purchasing it in order to gage whether or not it would be worth my time, and all praised Breaking the Conflict Trap (Policy Research Reports):

I've never seen this kind of information anywhere else. It's a revelation. Somewhat dry, but if you want to know the real source of war and violent conflicts among groups, this is the book to read. Not opinions, just the facts, ma'am (for those of you who watched the TV show "Dragnet" mid-20th Century). GREAT BOOK!

Civil war conflict is a core development issue. The existence of civil war can dramatically slow a country's development process, especially in low-income countries which are more vulnerable to civil war conflict. Conversely, development can impede civil war. When development succeeds, countries become safer;when development fails, they experience a greater risk of being caught in a conflict trap. Ultimately, civil war is a failure of development.'Breaking the Conflict Trap' identifies the dire consequences that civil war has on the development

process and offers three main findings. First, civil war has adverse ripple effects that are often not taken into account by those who determine whether wars start or end. Second, some countries are more likely than others to experience civil war conflict and thus, the risks of civil war differ considerably according to a country's characteristics including its economic stability. Finally, *Breaking the Conflict Trap* explores viable international measures that can be taken to reduce the global incidence of civil war and proposes a practical agenda for action. This book should serve as a wake up call to anyone in the international community who still thinks that development and conflict are distinct issues.

"The book's findings are instructive.... The authors wisely advise that no single policy can be successful on its own and each country or conflict needs a unique combination of initiatives which address the specific conditions."--Public Administration and Development
