**NOREEN TEHRANI : Building a Culture of Respect (Issues in Occupational Health)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building a Culture of Respect (Issues in Occupational Health):

Building a Culture of Respect focuses on the development of organizational cultures that promote the dignity of all employees to reduce the incidence and impact of bullying. This process requires an integration of organizational policies, processes and interventions. Written by a group of experienced academics and practitioners, this collective volume allows theory to be integrated with evidence and practice in an approach that can be used to inform organizational management, unions, human resource managers, lawyers, general practitioners, occupational health

psychologists and counselors on the most effective ways of addressing bullying at work.
