Anita Chandra, Joie Acosta, Stefanie Stern, Lori Uscher-Pines, Malcolm V. Williams : Building Community Resilience to Disasters: A Way Forward to Enhance National Health Security (Technical Report (RAND)) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Community Resilience to Disasters: A Way Forward to Enhance National Health Security (Technical Report (RAND)):

Community resilience, or the sustained ability of a community to withstand and recover from adversity, has become a key policy issue. This report provides a roadmap for federal, state, and local leaders who are developing plans to enhance community resilience for health security threats and describes options for building community resilience in

key areas.

From the Inside Flap Provides a roadmap for federal, state, and local leaders who are developing plans to enhance community resilience for health security threats and describes options for building community resilience in key areas.
