C. Ray Johnson, Johnson : CEO Logic before purchasing it in order to gage whether or not it would be worth my time, and all praised CEO Logic:

0 of 0 people found the following review helpful. Excellent book for gaining an excellent perspective on business success. By DanI love this book. It's pretty basic but clear. Much of what divides successful from unsuccessful pursuits comes down to right thinking. Whether you plan to become a CEO or already one or whether you just want to improve your perspective as a manager or individual contributor, this book is an excellent read and time well invested. 0 of 0 people found the following review helpful. Three Stars By SPCould be more condensed. 0 of 0 people found the

following review helpful. A business executives bible. By Reginald Spivey CEO logic was everything I expected. A refresher course for CEOs and ex-ceos. It lives up to its title of how to think and act like a CEO. A good read for business practioners.

This book starts with the foundations of business success: the development of a business philosophy that works for you, and the strategic application of that philosophy in all areas of your endeavor.
