Author Unknown : Food Processing and Nutrition (Food Science and Technology) before purchasing it in order to gage whether or not it would be worth my time, and all praised Food Processing and Nutrition (Food Science and Technology):

Food Processing and Nutrition elucidates the relationship between food processing and nutrition, particularly, the properties of nutrients, effects of different processes, commodities, and the addition of nutrients. This book will be

valuable to those who require a general outline of the subject and specific and detailed information about a particular product or process.
