From Routledge : Food, Science, Policy and Regulation in the Twentieth Century: International and Comparative Perspectives (Routledge Studies in the Social History of Medicine) before purchasing it in order to gage whether or not it would be worth my time, and all praised Food, Science, Policy and Regulation in the Twentieth Century: International and Comparative Perspectives (Routledge Studies in the Social History of Medicine):

This highly topical book offers a comprehensive study of the interaction of food, politics and science over the last

hundred years. A range of important case studies, from pasteurisation in Britain to the E coli outbreak offers new material for those interested in science policy and the role of expertise in modern political culture.
