From Asian Development Bank : Gender Equality Results in ADB Projects: Mongolia Country Report before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gender Equality Results in ADB Projects: Mongolia Country Report:

Rapid gender assessments of 12 projects in four countries were undertaken as part of the Asian Development Bank's commitment to improving aid effectiveness. The assessment of three loans in Mongolia found that positive gender equality results were achieved due to the implementation of a gender action plan in one project and a gender mainstreaming approach in another. Comparing approaches between the three projects demonstrated that

paying attention to gender differences during design and implementation produced better results for women, enhanced the quality of project implementation, and contributed directly to achieving loan outcomes and improved project effectiveness. This report discusses the gender equality results achieved for each project, summarizes factors that enhanced the quality of project design and implementation, and makes recommendations to maximize gender equity as a driver of change.
