From Routledge : Geographies of Entrepreneurship (Routledge Studies in Human Geography) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Geographies of Entrepreneurship (Routledge Studies in Human Geography):

This book addresses a gap in the present literature on the role that geography plays in the distribution of

entrepreneurial activity. Emerging work on entrepreneurial ecosystems suggests it is important entrepreneurship studies move beyond the mere identification of factors that impact entrepreneurial activity to consider the unique geographic contexts in which entrepreneurs operate. These contexts include a variety of interactive elements including regional characteristics, institutions, actors, and connectors. As such, this collection analyses entrepreneurial activity in regions around the globe. The contributions explore a series of diverse regions in terms of their geographic, historical, industrial, and institutional contexts. The book also explores a range of topics, such as patterns of regional/subnational variations in entrepreneurial activity, geographically mediated determinants of entrepreneurship, inter-temporal dynamics, evolution of regional systems of entrepreneurship, and the impact of entrepreneurship on regional development and regional entrepreneurship policy. This book enhances our policy and practical knowledge about the unique regional context in which entrepreneurs operate and demonstrates the important role that geography plays in the spatial distribution of entrepreneurial activity.

About the Author Elizabeth A. Mack is Assistant Professor in the Department of Geography at Michigan State University, USA. Haifeng Qian is Assistant Professor in the School of Urban and Regional Planning at the University of Iowa, USA.
