Joachim Whaley : Germany and the Holy Roman Empire: Volume I: Maximilian I to the Peace of Westphalia, 1493-1648: Volume 1 (Oxford History of Early Modern Europe) before purchasing it in order to gage whether or not it would be worth my time, and all praised Germany and the Holy Roman Empire: Volume I: Maximilian I to the Peace of Westphalia, 1493-1648: Volume 1 (Oxford History of Early Modern Europe):

2 of 4 people found the following review helpful. a lot of detailBy Ted Skinnervery good for the big picture of a very complicated place and time in history. The oxford label is a good reference to go to for a lot of information3 of 6 people found the following review helpful. Do not attempt to read this if you're not very ...By Davis BourneDo not attempt to read this if you're not very very familiar with German history. This is not an introduction in any sense of the word to German history. It was very tough to get through because he assume you know what the reichstag is or the electors.0 of 3 people found the following review helpful. Very good.By DanielWhaley has written very good surveys of a difficult, multicultural, multilinguistic, and extremely partitioned history. His are the best books on the subject as this time.

Germany and the Holy Roman Empire offers a striking new interpretation of a crucial era in German and European history, from the great reforms of 1495-1500 to the dissolution of the Reich in 1806. Over two volumes, Joachim Whaley rejects the notion that this was a long period of decline, and shows instead how imperial institutions developed in response to the crises of the sixteenth and seventeenth centuries, notably the Reformation and Thirty Years War. The impact of international developments on the Reich is also examined. The first volume begins with an account of the reforms of the reign of Maximilian I and concludes with the Peace of Westphalia in 1648. It offers a new interpretation of the Reformation, the Peasants' War, the Schmalkaldic War and the Peace of Augsburg, and of the post-Reformation development of Protestantism and Catholicism. The German policy successfully resisted the ambitions of Charles V and the repeated onslaughts of both the Ottomans and the French, and it remained stable in the face of the French religious wars and the Dutch Revolt. The volume concludes with an analysis of the Thirty Years War as an essentially German constitutional conflict, triggered by the problems of the Habsburg dynasty and prolonged by the interventions of foreign powers. The Peace of Westphalia, which ended the conflict, both reflected the development of the German polity since the late fifteenth century and created the framework for its development over the next hundred and fifty years.

"Joachim Whaley crowns a long generation's work of demystifying the empire's history with these two large, learned, and impressive volumes...[A] magnificent achievement."--Journal of Modern History"These two volumes offer an historical survey of roughly three centuries such as I have never before encountered. Joachim Whaley has produced a masterpiece. He has not overlooked anything at all. The two volumes are perfectly researched and the price of 130\$e is more than reasonable. Anyone interested in modern history and in particular the history of Germany must read this work."--Fachbuch Kritik (review of the German edition)"[A] pleasure to read...Whaley shows how the efforts to create an intellectual and political framework in the pre-constitutional era had lasting effects to the present."--Kouml;ner Stadt-Anzeiger (review of the German edition)"[A] great achievement that he has introduced the English-speaking public to German history before the twentieth century in such a comprehensive manner and that he shows so decisively how the old national narrative has been revised. The sheer volume of the material that he employs also commands respect."--Frankfurter Allgemeine Zeitung (review of the German edition)"The new standard work on the period in which people still spoke of 'German liberties.'"--Die Zeit (review of the German edition)About the AuthorJoachim Whaley is Senior Lecturer in German, Faculty of Modern and Medieval Languages, University of Cambridge. Whaley read History at Christ's College Cambridge. He held Fellowships in History at Christ's College and Robinson College before becoming a Lecturer in German in the Faculty of Modern and Medieval Languages at Cambridge, where he teaches German history, thought, and language. He is the author of Religious Toleration and Social Change in Hamburg 1529-1819 and of numerous articles on early modern and modern German history. He was elected a Fellow of the Royal Historical Society in 1984.
