From North Holland : Handbook of Regional and Urban Economics: 5A-5B (Handbook in Economics) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Handbook of Regional and Urban Economics: 5A-5B (Handbook in Economics):

Developments in methodologies, agglomeration, and a range of applied issues have characterized recent advances in regional and urban studies. Volume 5 concentrates on these developments while treating traditional subjects such as housing, the costs and benefits of cities, and policy issues beyond regional inequalities. Contributors make a habit of combining theory and empirics in each chapter, guiding research amid a trend in applied economics towards structural and quasi-experimental approaches. Clearly distinguished from the New Economic Geography covered by Volume 4, these articles feature an international approach that positions recent advances within the discipline of economics and society at large. Emphasizes advances in applied econometrics and the blurring of "within" and "between" cities Promotes the integration of theory and empirics in most chapters Presents new research on housing, especially in macro and international finance contexts

From the Back Cover Developments in methodologies, agglomeration, and a range of applied issues have characterized recent advances in regional and urban studies. Volume 5 concentrates on these developments while treating traditional subjects such as housing, the costs and benefits of cities, and policy issues beyond regional inequalities. Contributors make a habit of combining theory and empirics in each chapter, guiding research amid a trend in applied economics towards structural and quasi-experimental approaches. Clearly distinguished from the New Economic Geography covered by Volume 4, these articles feature an international approach that positions recent advances within the discipline of economics and society at large. About the Author Holder of the Noranda Chair in Economics and International Trade, Gilles Duranton has taught at the Paris School of Economics, Princeton University, the Universidad del Norte in Colombia, the University of Lille, and others.
