by the Book. How to Lead by the Book has already greatly impacted our business. I have completely changed our interview process, (instead of asking resume questions, we ask character questions as suggested in chapter 6), recruiting process, honed our core values and really defined who we are as a company. I have even re-written our policies from suggestions in this book. Anderson's descriptions of how he treats people and upholds godly standards gave me renewed confidence (and strength) to continue keeping the bar high. I am thankful for his insight in this book, I learned much and enjoyed it greatly! 3 of 3 people found the following review helpful. More than a book - It's a resource!

Just musing, but this book should be required reading with a test to follow for our citizens and especially our political leaders.
