I setup corporations as serve as a senior business consultant for attorneys and individuals alike, and each year but the NOLO and Entrepreneur publications to stay updated and for additional insider information. I find them easy to understand, and their information reliable. Laws, and procedures change, so it's important to update these

books regularly. 1 of 1 people found the following review helpful. Excellent resource. By Jayne Crisp A great resource for individuals wanting to know the fine art of successfully creating a consulting business. Very practical information from A - Z from a person who has all the experience and is willing to share it. A valuable resource for individuals who are currently consulting and those wanting to start work as a consultant. This should be mandatory. 0 of 0 people found the following review helpful. Five Stars By Techy Great piece. I love it and would appreciate having another read from the same author.
