Great resource for anyone thinking of starting their own home based party business...By Tina AJThis is a great book for anyone wanting to start out their own home based business. I like the way the book is broken down into various sections with thorough explanations and checklists on what needs to be done. The author herself focuses on an art themed party business which is her specialty but the info she gives can also be used for other platforms and other business set ups. I would recommend this book as a great resource to starting their own business!0 of 0 people found the following review helpful. Thank you! thank you! thank you!By Lio's PartyI had tried to find a good book based on this subject, and it seems all event planning books are either based on corporate events or have nothing but obvious advice. This book details everything it takes to really start a children's party

business in an organized manner. She covers the basics, but also gives the details of things you might forget and regret later. I had already started my business plan, and had a clear idea of what I wanted to do before getting this book, but now I feel so much more confident because I have lists that I can reference and check off. It would be wonderful if she included some more stories or photos, but I will definitely be referencing back to this as I continue my adventure into Children's Party Planning. 1 of 1 people found the following review helpful. Ok for a newbie By Mrs. Me I have VERY limited experience with running a business and I still found this book to be pretty "common knowledge" stuff. Its is very organized and gives a literal step by step guide to starting a new business, so I'm sure someone out there would glean some knowledge from it, but for me it didn't tell me anything new.

From a \$250,000 fee for a seven-year-old Florida girl, complete with helicopter rides, to \$100,000 first birthday parties as reported in the New York Times, this is rapidly becoming the gilded age of children's birthday parties. The cost of these events now averages between \$200 and \$400, fueled by pressure to "keep up with the Joneses." Couple this surge in interest with the fact that births in the United States have exceeded 4 million each year since 2000, and you have a waiting and growing market. Planning such events has become a profession in itself. More and more, parents are turning to event consultants to plan their children's celebrations. If you've dreamed of your own home business, planned parties for your own children, and want to put your creative ideas to work, this book is for you. Packed with organizing tips, guidelines, checklists, and more, *How to Start a Home-Based Children's Birthday Party Business* will help you hit the ground running.

"This enthusiastic book provides practical advice on the possible pitfalls of event planning, particularly when dealing with children and their parents. It reads like a conversation with an experienced friend." Library Journal
