Ryan Arter : How to Start a Home-based Computer Repair Business (Home-Based Business Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Start a Home-based Computer Repair Business (Home-Based Business Series):

0 of 1 people found the following review helpful. Don't buy nothing to see hereBy Scott MorrisThis is just the same book sold under different names no real information. Every other page has a highlighted area which is dark blue with black writing, should maybe use black on black can't see it why bother. How to start - put name here book2 of 4 people found the following review helpful. terrible don't waste your moneyBy juan carlosMediocre would be a complement its a terrible book it give a businesses plan that you can consider junk you van find better and for free on the web. Doesn't give the really important things you need like what software to buy where to buy it. What tools will be helpful for a entrepreneur in this business1 of 1 people found the following review helpful. Five StarsBy ChristopherGreat read.

Business News Daily sees a new segment emerging in this field. The new trend is tablet repair. They rank this in their top home-based ideas for 2012. Also worth noting is that "Computer Maintenance" topped their list of new home-based jobs on the rise and this covers anti-virus software installation and desktop cleanups. A very large segment of business that will be covered in this book on how to start a home-based computer repair business and will also include cell phones which will give the book a larger appeal and set it apart from its competition.

About the Author Ryan Arter has been working in the service and repair industry since 1994, where he began his career working for a monitor and floppy drive repair shop. After several years of learning and planning, and with a gutsy move out to the middle of the country in Kansas City, he loves sharing and growing his knowledge in the field. He started Mission Repair with one goal in mind: To service customers in the most professional and "service oriented" way that he knew how. Visit him at www.missionrepair.com
