4 of 4 people found the following review helpful. its ok for an outline By Tabythis is alright for giving you an idea and what you need to consider in opening a business in your home but the part where it tells you how to become a groomer needs work. There are so many bad ways to be a groomer and its not like human hair cutters. anyone can really say their a groomer and unfortunately their the ones ruining it for the good groomers. I do like the outlines and what kinda permits you need to find out about. some rough ideas on equipment and expenses. its a start for sure. 2 of 2 people found the following review helpful.
