Excellen primer for the freelance writerBy Angela KnightI had the unusual privilege of being a student in Dr. Hensley's Freelance Writing class, and though it was (obviously) required reading for the course, I found this book quite useful for a beginning writer. I may enjoy writing, but how should I go about it, if I'd like to officially write for publication purposes? And why should I even do so?Thankful that this is not a review written for a grade, I will still enthusiastically share that this book has a permanent place on my shelf. It isn't there as a dust collector, but as a useful resource. Doc Hensley is a valued professor, speaker, and writer - he openly

shares tips of markets, topics, formats and style in this most recent edition of his work for freelancers. If this is an area of interest to you, I don't think you'd be disappointed! 0 of 1 people found the following review helpful. Truly teaches how make a LIVING with WRITING By Snow-white This book contains a wealth of information for freelance writers. I'm getting a 2nd copy to give away as gift (it's the perfect gift for other writers).
