Having been in business before, I was still about to pickup some things from this book that I did not know. While a lot of the information is generally known and common in practice, some of the specifics and reasons for things are not. For that, I'd say it's worth a read!0 of 0 people found the following review helpful. Overall good book!By Loyd ObenshainGives overall basic info on corps.1 of 1 people found the following review helpful. Eh.....OKBy Usman ShahidDo I know more. Yes. Do I feel more comfortable about running my newly incorporated business. Not really.This book has alot of REALLY basic information and information that is good to know but not going to help me immediately running my S Corporation tax wise. While its probably a good read (only took me 3 hours to read the whole thing skipping the parts I knew) it didn't answer the exact questions I HAVE.
