BusinessNews Publishing : Summary: Unequal Democracy: Review and Analysis of Larry M. Bartels's Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Summary: Unequal Democracy: Review and Analysis of Larry M. Bartels's Book:

0 of 0 people found the following review helpful. Grade SaverBy BenThis is a great review, I was in a jam and hadn't read part of this book for an upcoming political science quiz (the politics of poverty). So i downloaded this summary onto my computer, studied it for half an hour and got a hundred percent. However I went back and finished the book later, I would recommend reading the acutal book, but this summary works in a jam. Capitol Reader makes good

synopsises.

The must-read summary of Larry M. Bartels's book: "Unequal Democracy: The Political Economy of the New Gilded Age". This complete summary of "Unequal Democracy" by Larry M. Bartels, a prominent American political scientist, presents his account of the truth behind several myths about American politics. In his book, the author mainly exposes the fact that the gap between the rich and the poor has widened considerably under Republican administrations, leaving the country completely unequal. Bartels argues that this is due to the political choices made by governments that favor the wealthy. Added-value of this summary: Save time; Understand the wealth gap in America; Expand your knowledge of American politics and economics To learn more, read "Unequal Democracy: The Political Economy of the New Gilded Age" to investigate the consequences of America's income gap and the ability to satisfy democratic ideals.
