**Greg Mills, John Peter Pham, David Kilcullen : Tafelberg Short: Somalia - Fixing Africa's Most Failed State** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tafelberg Short: Somalia - Fixing Africa's Most Failed State:

2 of 2 people found the following review helpful. Africa experts draw fascinating lessonsBy JB DaviesInstead of losing hope and giving up on Africa, there is much that can be done. The authors show how even the "most failed" state (Somalia) offers openings and opportunities and what can be dervied from the contrasting examples of the two Somalias -- eg that local ownership is a prerequisite for any meaningful intervention. Well worth the read.

Lowest down on the Failed State Index for five years running, Somalia has been described as 'destroyed', 'stateless' and 'ravaged'. Yet is also a place of promise... In this concise and compelling book, three internationally recognised experts on Africa examine the Somalian crisis. Comparing Somalia to neighbouring Somaliland, from the historical background up to the present, and looking into the effect of international intervention, this book provides an astute, sometimes surprising analysis pointing to the power of local ownership. Authoritative and thought-provoking, with many a lesson for stabilising failed states, Somalia - Fixing Africa's Most Failed State is both timely and useful.
