**Douglas J. Llewellyn : Teaching High School Science Through Inquiry and Argumentation** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Teaching High School Science Through Inquiry and Argumentation:

Proven ways to teach next generation science! To ensure our students achieve scientific literacy, we need to know what works in science teaching. One thing we know for certain: inquiry and argumentation are key. This groundbreaking book for Grades 9–12 addresses the new direction of science standards by emphasizing both inquiry-based and argument-based instruction. Filled with case studies and vignettes, this edition features: Exceptional coverage of scientific argumentation Enhanced chapters on assessment and classroom management Questioning techniques that promote the most learning Activities that emphasize making claims and citing evidence New examples

of inquiry investigations New approaches to traditional labs
