**Heidi Roupp : Teaching World History in the Twenty-first Century: A Resource Book: A Resource Book (Sources and Studies in World History)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Teaching World History in the Twenty-first Century: A Resource Book: A Resource Book (Sources and Studies in World History):

14 of 14 people found the following review helpful. An important discourse in teaching World History By Eileen R. Orzoff I have been teaching World History for a decade. I started researching best practices in world history this year due to a (friendly) debate within my department over the best strategies for teaching. This book has been an invaluable resource for me. First, there are no best practices in teaching world history (other than AP standards) because this is such a new field. Therefore the discussions and ideas raised by these distinguished authors give the rest of us a great

starting point for our own discussions. Secondly, there are fantastic references in here. I have gone on to order other books based on the works in this one. If you are a new or experienced teacher looking to reassess or create a world history curriculum this book will certainly give you food for thought and a framework to build upon. I highly recommend this book. 1 of 1 people found the following review helpful. Great aide  
By Eric Stephenson  
Good book so far. Pretty helpful not only for world history but for history in general. A lot of good information with examples of question types, rubrics, and lessons. Not a good content resource but that's not what it advertises. Very helpful to the new teacher!

By Cynthia D. Beckman  
All high school world history teachers need to read this but especially those teaching advanced classes. This book gives you insight as to what should be taught in a modern world history course as well as some great tips on how to teach it! Modern world history is no longer the western civilization course we had in college!

This practical handbook is designed to help anyone who is preparing to teach a world history course - or wants to teach it better. It includes contributions by experienced teachers who are reshaping world history education, and features new approaches to the subject as well as classroom-tested practices that have markedly improved world history teaching.
