From SAGE Publications, Inc : **Technology in Schools (Debating Issues in American Education: A SAGE Reference Set)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Technology in Schools (Debating Issues in American Education: A SAGE Reference Set):

0 of 0 people found the following review helpful. Excellent Teacher Resource By Donna H. This is an excellent teacher resource. It was worth the purchasing price because it offered many different articles about topics relevant across the curriculum and across grade levels. I would definitely recommend this selection. It is a great resource and an

interesting read!

Education of America's school children always has been and always will be a hot-button issue. From what should be taught to how to pay for education to how to keep kids safe in schools, impassioned debates emerge and mushroom, both within the scholarly community and among the general public. This volume in the point/counterpoint Debating Issues in American Education reference series tackles the topic of technology in schools. Fifteen to twenty chapters explore such varied issues as the digital divide, electronic textbooks, impacts on curricula, privacy on school computers, web censorship, and more. Each chapter opens with an introductory essay by the volume editor, followed by point/counterpoint articles written and signed by invited experts, and concludes with Further Readings and Resources, thus providing readers with views on multiple sides of technology issues within America's schools and pointing them toward more in-depth resources for further exploration.

About the Author Kevin P. Brady is currently an associate professor in the Department of Leadership, Policy and Adult and Higher Education at North Carolina State University in Raleigh, North Carolina. Previously, he was an assistant professor in the Department of Educational and Community Programs at the City University of New Yorkdash;Queens College. His current research interests include student and teacher free speech and expression, legal issues involving student discipline, special education law, school finance, blended learning distance education course development, and educational technology issues involving today's school leaders. Brady's peer-reviewed scholarship appears in a wide array of leading educational law, policy, and technology journals, including the Brigham Young University Education and Law Journal, Children's Legal Rights Journal, Distance Education, Education and the Law, Education and Urban Society, Journal of Education Finance, Journal of Interactive Online Learning, Journal of Online Learning and Teaching, Journal of School Leadership, International Journal of Educational Reform, NASSP Bulletin, of Research in Education, and West's Education Law Reporter.
