studies of successful companies who challenged traditional operating paradigms, historical perspectives on labor laws, management practices, and economic climates, and an examination of the impact of these influences on today's business practices. • Chronology of key events in the history of American business from 1630 to the present • Helpful sidebars of the evolution of key terms used today • Comprehensive index includes category, company names, personal names, and cross references to other events • Suggestions for further reading for each article • 10 relevant charts and tables • Appendix of relevant sources • 80 key primary documents supporting major events in American business

"This volume will be of interest to just as wide a variety of libraries and patrons; public libraries, community colleges and other two-year programs, as well as universities and other larger institutions. The entries in this encyclopedia provide a starting point for each of the included events, but taken as a whole, they also paint a picture of business history." - Reference User Services Quarterly "An excellent addition for most undergraduate institutions, high school libraries and public libraries when it comes to research." - Reference "Skrabec has produced an accessible reference work for American business history. Although based on stand-alone descriptions of historical events, it reads more like a single fascinating story with 100 short chapters. . . . This volume's concise treatment and chronological (rather than alphabetical) organization make it an excellent introduction to American business history." - Choice "Skrabec's writing is remarkably engaging and will be accessible even to high school students. This smart, efficient examination of pivotal events in U.S. business history is valuable as a stand-alone overview of American economic history and as a supplement to more traditional economic and business encyclopedias." - Library Journal About the Author Quentin R. Skrabec, Jr., PhD, is professor of business and operations management at the University of Findlay, OH.
