needed or required, In today's economy where the extra buck is not there for that education it's kind of useless. On the extra education it did not really expand where to get it, was more or less generalized as check your local listings and use your best guess or judgement. So another book to collect dust on the shelf, not worth the purchase. 0 of 0 people found the following review helpful. 200 Best Home Businesses: Easy To Start, Fun To Run, Highly Profitable By Irene Broach Much research went into this project, but the content was disappointing, outdated, and totally uninspiring! The cover (which sold it to me) is good, the idea brilliant, but I'd go back to the drawing board and rev it up a few notches, do much more research, add great images, print on better quality paper, make it appealing for today's discerning women around the world who would like to have the freedom to work from home, but they need to be INSPIRED! 4 of 4 people found the following review helpful. good ideas By Kindle Customer Lots of good ideas in this book. Each idea is only given a brief overview but it's a good way to get your own ideas going and they give you resources to find more information. Most of the business ideas were practical and do-able for most people. I liked it!
