My copy is already dog-eared and colorfully highlighted. As an instructional coach, this book is my bible of facilitating productive meetings, working through conflict, and putting a spotlight on toxic meeting behaviors. I couldn't live without this book! The best part is the last section in which meeting protocols are named and clarified with possible extensions and adaptations. 1 of 1 people found the following review helpful. Ebook disaster By Marie As an ebook this is incredibly difficult to navigate. With no page numbers and no table of contents it is impossible to use this book as a resource. It was a required book from class but I've ended up borrowing a classmate's paper copy and never using my kindle edition because it is impossible to read. I'd return it if I could. 0 of 0

The Adaptive School helps develop a common language for norming collaboration and has been extremely helpful in bridging understanding in a multicultural school setting.

Expanded and updated, this edition of one of the most popular resources for school change now comes with ancillary materials containing 150 facilitation strategies. Placing inquiry at the center of effective change, *The Adaptive School* gives readers the tools they need to bring about genuine school improvement and to learn to use and incorporate them into practice. The book also includes a useful problem locator that helps define problems and identify strategies to deal with them. New to this edition: the ancillary materials, the strategies, the problem locator, the expanded material on facilitation, and expanded self teaching tools.

Anyone who is building a team, trying to sustain a collaborative group, facilitating a meeting, or participating on a committee will appreciate this set of 'directions,' the practical how-to's of collaborative leadership. . . . It is not a book to peruse and place on the shelf; it is a desktop reference to support change and positive visions of collaborative cultures. —Michael Dolcemascolo, assistant director of curriculum, instruction, and assessment for the Onondaga-Cortland-Madison County Board of Cooperative Educational Services, NY, and training associate for the Center for Cognitive Coaching, and the Center for Adaptive Schools
