ConsoloYou really cannot read a book that

claims to be an awakening course that harps on about other books by the same author every other page. The 'course' was so muddled with personal nonsense which did not give me insight to what it was about or what I should do that in the end I nearly threw it on the rubbish heap. Maybe Joe Vitale is a guru, but this book really does not give the impression he can teach us anything. 0 of 0 people found the following review helpful. Five Stars By tito Thanks a Lot
