Katrin Muff : The Collaboratory before purchasing it in order to gage whether or not it would be worth my time, and all praised The Collaboratory:

This book explores the transformation that emerges when groups spread around the world working on similar issues collaborate rather than compete. The Collaboratory is a handbook for practitioners in organizations of all kinds who want to make a difference.

"Authors show their initiatives and insights on how to identify, invite, design and host a journey of collaboration to solve wicked problems. The book, rather than a collection of articles, is very well framed and feels like a co-created exploration of people working directly to re-shape change-making processes towards journeys of collaboration."
(Augusto Cuginotti)"This book shows how organizing can be fun, practical and transformative. A rare mix of practical step-by-step guidance with profound theory that touches heart and soul. Keep this book beside you, and give it to your boss!" (Jonathan Gosling)

About the AuthorKatrin Muff is Dean at Business School Lausanne, Switzerland. She also co-directs the world-class Executive Course in Sustainable Business at the University of St. Gallen.
