But after I read this book it all makes sense. What I want? What I don't want? From a basic idea of consulting to very advanced and important thing in life called balance. I think I see this book an opportunity to be a good consultant, a good worker and a good person to your self and to others. It brings up lot of important aspects of schedule, timing, money, family, working from home, etc. I would

recommend this book to any one who claims to be a consultant and want to be a consultant.1 of 1 people found the following review helpful. Awesome / ProfessionalBy Ian ChongFor any one who is in or wants to enter the consulting business. Exemplifies many of the unknown elements of business. You can't just read it once, It has to be re-read and re-read. Insightful, thought provoking and inspiring. Of special note is the chapter on the "Dark side of consulting". Blew me away, especially when the concept finally clicked.2 of 2 people found the following review helpful. Good Primer for ConsultantsBy Pradeep AnandFifteen years ago, I read this book and its values resonated with me very strongly. It articulated and organized my thoughts about values, quality of life, life in balance, and other subtle but important personal issues. Fifteen years later, I still recommend the book to people who want to get started in consulting.To people who are seeking jobs, I recommend the last two chapters of An Indian in Cowboy Country: Stories from an Immigrant's Life.

A classic revised and updated for the twenty-first-century consultant Revised and updated for consulting in the twenty-first century, this new edition is for anyone who wants to know what consulting is really like as a career, as a living, and as a life. Geoffrey Bellman reveals how to make the job rewarding both financially and personally as he examines the practical issues of managing time, clients, and money as well as such broader concerns as how to balance work with family life. At once practical and personal, this book is for all types of consultants, all those who work with consultants, and all those who dream of being consultants. Geoffrey M. Bellman (Seattle, WA) has consulted to organizations of all sizes, from the inside and outside, including numerous Fortune 500 companies. He is the author of several well-received books, including Getting Things Done When You re Not in Charge the bestselling book that has sold more than 80,000 copies.
