2 of 2 people found the following review helpful. has more Quantity than QualityBy M StewartYes, this book does

indeed cover a lot of content and includes VERY basic / minimalistic forms that are better served to help start as the beginning content for contracts or other legal communication. It's a good reference book to have when you're in a bind and something is better than nothing. But there's also a lot of great content on free sites like totalrealestatesolutions.com that is better. (This is a free site and I have nothing to gain from the recommendation other than helping pass along something that's helped me learned with others).0 of 0 people found the following review helpful.
