the causes of these problems and we need to come together to fix them. Offers little to fix the problems because the real solutions won't win a popularity contest, err, an election.3 of 3 people found the following review helpful. Save your money and go to your local libraryBy felines100Check this book out from a library. Don't spend the money purchasing it. This book will be quickly outdated.0 of 0 people found the following review helpful. Key book for green transitionBy Annis PrattA book of great importance as we transition to a green economy with clean energy and a plethora of new kinds of jobs
